About me

— — —

I was always fascinated by programming and started to learn how to code by watching online tutorials.

I enjoy looking at web applications holistically and making sure they offer users the best experience possible.
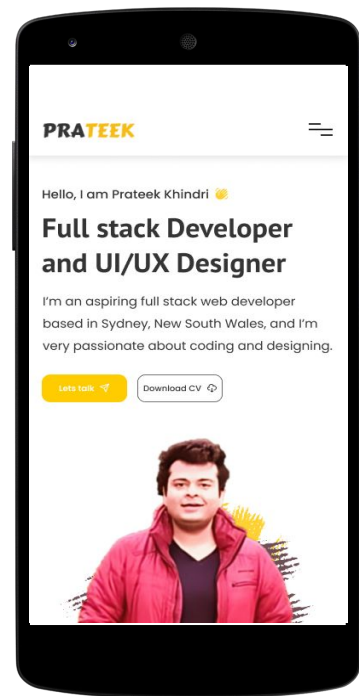

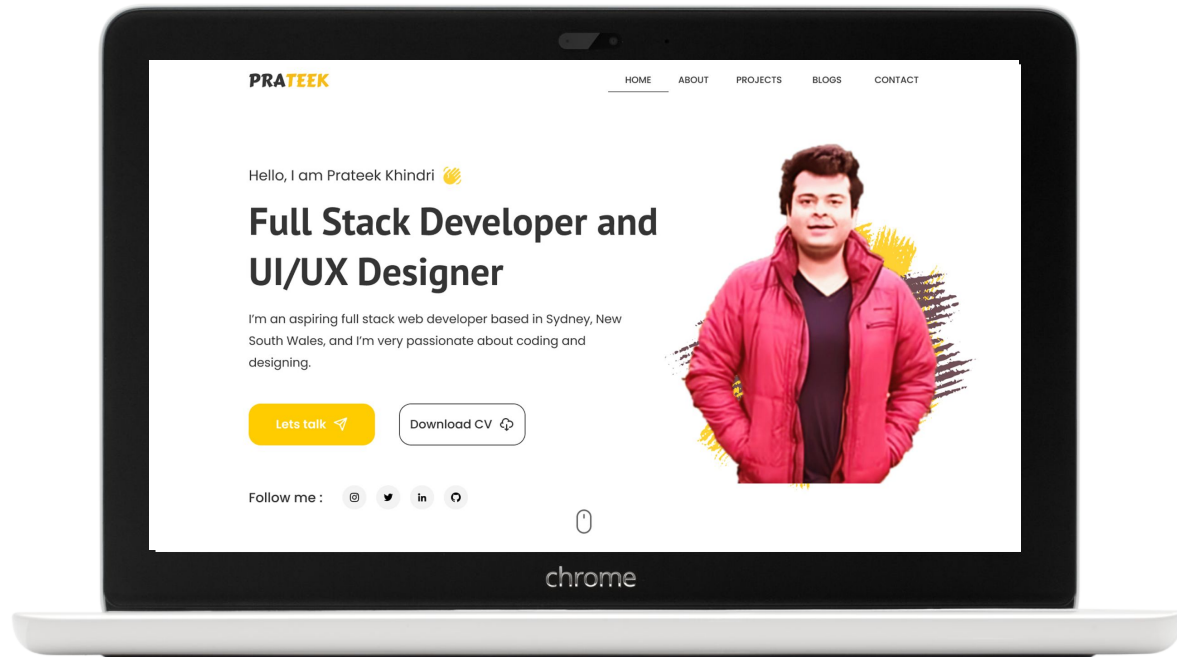

With a love for all things digital, I want to create experiences that will help clients connect with their audiences more effectively.
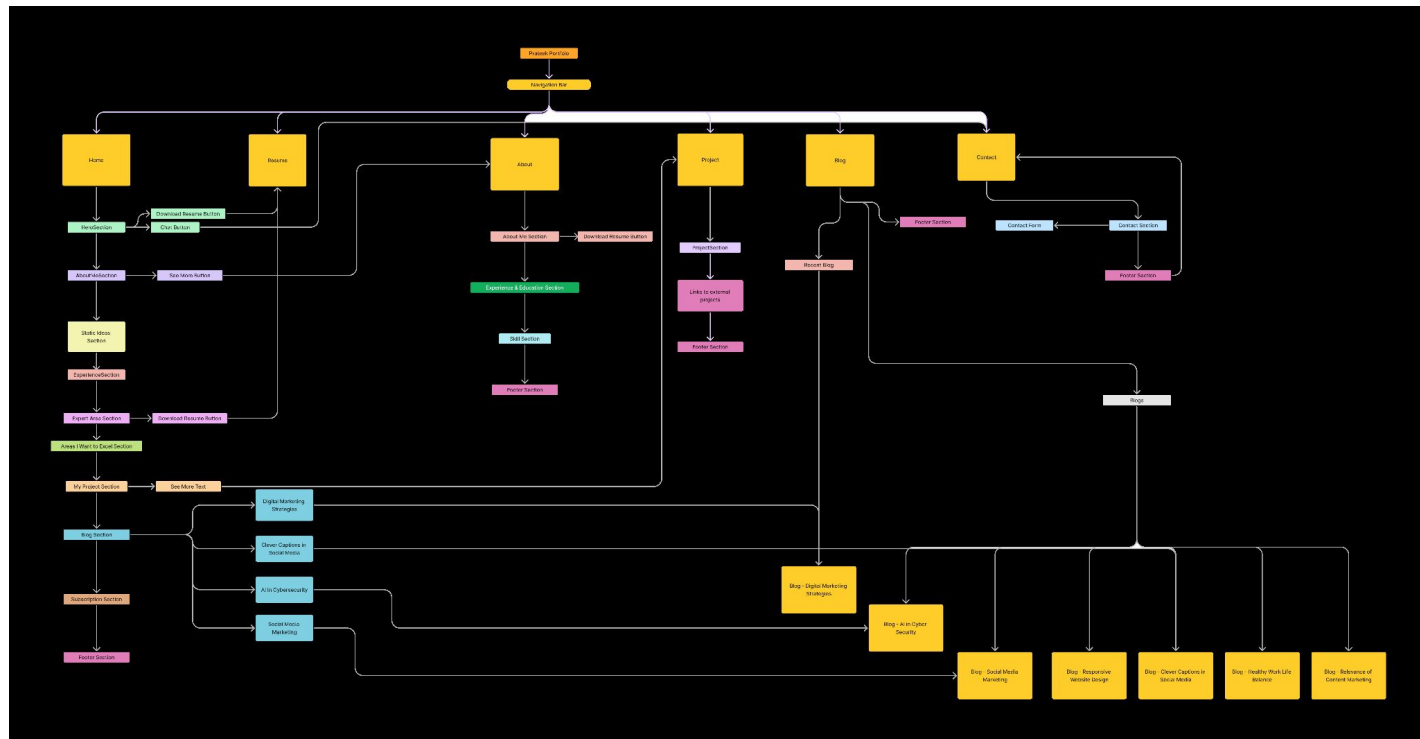

Overview
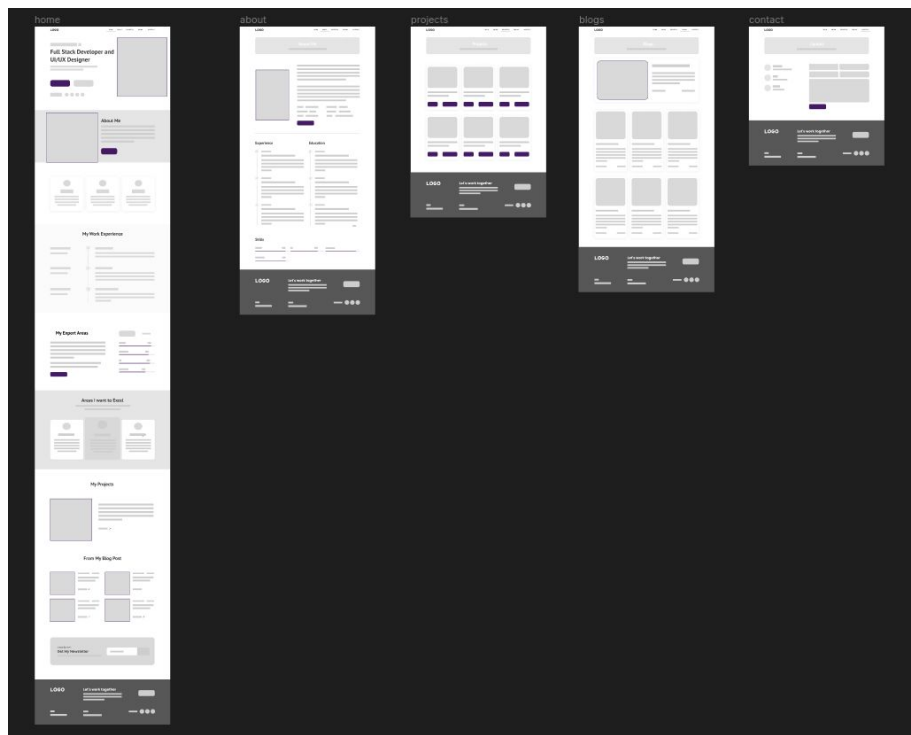

An overview of the sitemap and wireframes

Personal Portfolio Project

- - -

Project SiteMap

The project site map includes a home page, an about page, a projects page, a blog page which links to other static blog pages and a contact page

Wireframes - Desktop

The wireframe for the desktop view includes 5 pages - home, about, project, blog and contact

Wireframes - Mobile

The wireframe for the mobile view includes the responsive design for the home, about, project, blog and contact pages

Reflection

What I learnt from building a portfolio website

- Have a clear vision for what you want your website to achieve
- Use clean and simple design elements that are easy for users to navigate
- Have a clear understanding of your target audience and what they are looking for
- Keep your website updated with new content and features
